Dave:

After reviewing the Agency long-range plans, I note several areas which will have a logistical impact. These areas are rather obvious and will also be raised by the Division Chiefs concerned.

c) Analytic Plan: Increase in the Agency's analytic capability, particularly as related to increased Office of Data Processing training and their need for more space, will impact directly on RECD and the Logistics Services Division (LSD). In addition to space needs, Agency growth will increase requirements for service across the board, i.e., motor pool, couriers, building supply, etc.

The analysis and break-out of the plan provided by the Plans and Program Staff is outstanding. It was a major help in quickly reviewing some very complex issues. (U)
